

KIMIA AFRICA

Raw Material and Technologies
Exhibition for Chemistry **2015**

**International meeting
of chemical and paracheimical
industry professionals**

6 - 7 - 8 october 2015

Casablanca International
Conference and Exhibition Center

www.kimia-africa.com

Organiser

Partners in organisation

FEDERATION
DE LA CHIMIE &
DE LA PARACHIMIE

Opening Hours : 9 h 00 - 18 h 00

Place : CICEC Casablanca

Frequency : biennial

Exhibitors : 200

Attendance : 4 000 visitors expected

Activities : 3 days at the forefront of raw material and technologies news for chemistry and parachemistry

Visitors

INVESTORS / DECISION-MAKERS / PRESCRIBERS OF INDUSTRIAL PRODUCTION AND R&D

- ◆ Management
- ◆ R&D
- ◆ Building
- ◆ Manufacturing and quality control
- ◆ Laboratory management
- ◆ Marketing, production management
- ◆ Purchases
- ◆ Manufacturing / production
- ◆ Maintenance / servicing

Laboratory
 Mineral chemistry
 Gas and oil industry
 Biotechnology
 Agri-food
 Agrochemicals
 Mining industries
 Environment
 Specialty chemicals
 Engineering, consulting firms
 Plastic, polymers and rubber
 Pharmacy, cosmetics and fragrances
 Others

KIMIA AFRICA 2015

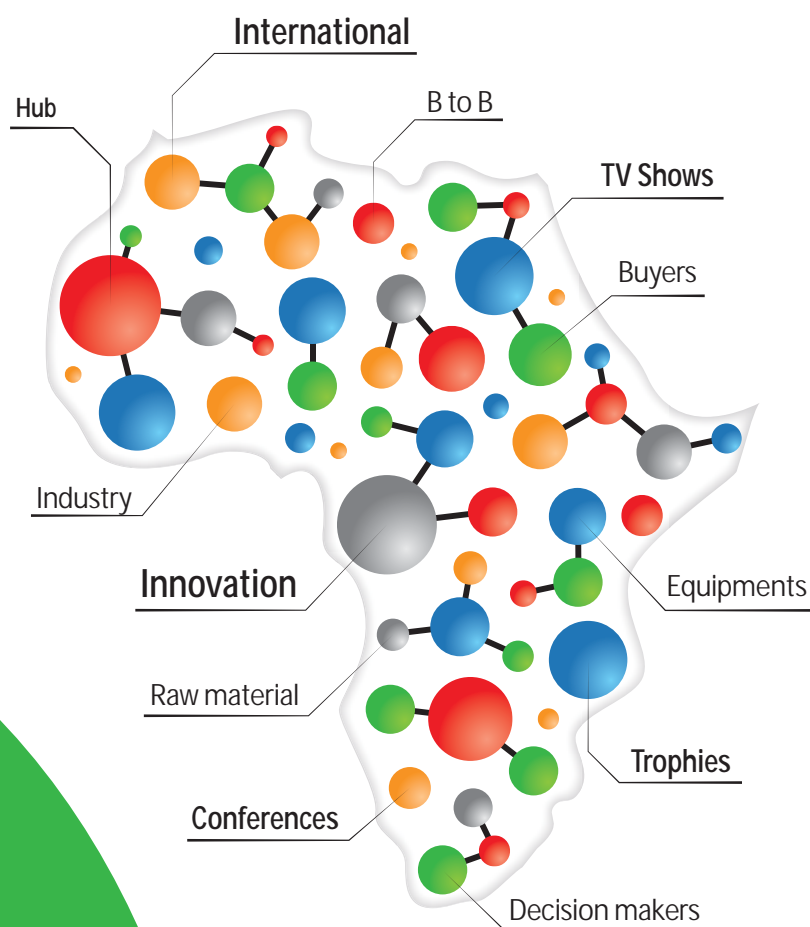

The Regional Meeting of Chemical and Parachemical Industry professionals

The French Chamber of Commerce and Industry (CFCIM) in Morocco organizes, in partnership with Moroccan Chemistry and Parachemistry Federation (FCP), Interprofessionnal grouping of chemical industry providers (GIFIC) and Chemical Industry Union (UIC), KIMIA AFRICA, the Raw Material and Technologies exhibition for chemistry and parachemistry, from October 6th to 8th, 2015.

KIMIA AFRICA builds on the events devoted to chemistry and parachemistry organized by CFCIM. Based on a powerful concept, such international event combines business meetings to a rich program with the purpose to :

- ◆ Bring together and unite professionals of the whole chemistry and parachemistry sector
- ◆ Provide professionals of the region with an exchange and business platform for a fast-growing market.

CONCEPT :

Africa, high-growth market :

- GDP : 1 600 \$ billion
- Turnover : 2 600 \$ billion in horizon 2020
- Growth rate in 2020 : 6%

Exhibitors

PROCESS TECHNOLOGIES

- Basic components
- Fluid and energy management
- Equipments for production units
- Pharmaceutical and cosmetic technologies
- Packaging
- Storage, handling and transportation
- Materials
- Processes, equipments and services for biotechnologies

ENVIRONMENT AND SECURITY

- Processes, processing products and techniques
- Recycling processes
- Sustainable development
- Certification

MEASURES, CONTROL AND REGULATION

- Measurements of quantities
- Measures and control of mechanical quantities
- Industrial analysis equipments and techniques

AUTOMATION, SYSTEMS AND INDUSTRIAL IT

LABORATORY TECHNIQUES AND PRODUCTS

- Laboratory equipments
- Analyses and Instruments
- Laboratory planning
- Utensils and consumables
- Chemicals

ENGINEERING, MAINTENANCE AND SERVICES

RAW MATERIALS AND ADDITIVES

- Chemical mineral industry
- Chemical organic industry
- Parachemistry
- Manufacturing of soaps, fragrances and maintenance products

Chemical and parachemical industry in Morocco

Owing to its geographical position, besides its strong cultural bonding in Africa and its opening up to Europe, Morocco has more than ever consolidated its position as a **hub into Africa**.

The chemical and parachemical industry plays a major role in the Moroccan economy and represents **44% of exports, 45% of industrial sector production and 48% of investment**.

In this regard, Morocco sets itself as a regional hub for investment, production and exchanges.
